19 January 1956

MEMORANDUM FOR: General Schriever

SUBJECT: Status of ARS Early Capability (Taken to Washington by Glasser)

Telephone call from Colonel Genez this date with following information:

1. Delivered to Gen Power 16 January, who indicated favorable reception; however, wanted to make sure any future action was performed by competition methods.

2. Delivered documents to General Putt on Tuesday, who eventually turned them over to the Homer Joe Stewart Group for review. (This is the same group that Si Ramo and I talked to last summer.)

3. The next move will probably be to brief the Homer Joe Stewart Group in early February.

NOTE: We have been requested to supply Stewart, Lauritsen, and Clement copies of this document so that they can become familiar with the document in advance of any briefing. In addition, Hq USAF would like to have 10 more copies.

4. No action is required on your part. The above is offered for your information only.

C. K. T.

cc: Colonel Glasser
